Dear Harold:

I am putting the finishing touches on some book reviews for the Madison Capital Times and am working on the Schweiker Report. In 7 or 8 days I wish to hand in a critique of Schwieker.

Would it be possible, if you have the time and think that it should be done, to list the names of the "secret" witnesses A and D etc. that is used by the Report.

I could not be sure my copy taken over the phone is correct in spelling. The critique will be rather blunt and this might help the editor push it.

Enclosed is a stamped envelope and a piece of ap paper to serve as the document to cite in the footnote.

Every thing goes well here. The conference or forum will be held November 9 through the 13th. When the kids get back we will send a specific time table but I want them to help set up the thing.
